Re: ~~Broselow~~

Bruce D. Beitler  
Solid Waste Specialist  
Morristown Region

On August 21, 1978, in response to numerous complaints from area residents and local government officials, an inspection of the above described former landfill site was conducted. I was accompanied by Trooper [redacted] and Trooper Patterson of the Pennsylvania State Police. Prior to the inspection a search warrant was obtained from District Judge [redacted] John Catanese. Upon arriving at the site we spoke to [redacted] the trailer who attempted to phone Mr. Blossenski. After [redacted] Mr. Blossenski could not be reached, we left a copy of the search warrant with the resident and proceeded with the inspection. A copy of the warrant was also left on the gate.

Site conditions at the time of the inspection are shown in the attached sketch. It is obvious that a substantial amount of waste has been deposited on the site over the years. The waste fill area appears to be an area behind the trailer was [redacted] of the large ash pile [redacted] on the site. Deposited along [redacted] 500 fifty-five gallon drums, [redacted] estimated 40 to 50 drums [redacted] to 30 are leaking waste [redacted]

The inspection also found that [redacted] and drum dumping area has [redacted] two of which extend onto [redacted]

A series of five photographs [redacted]

In view of the present conditions [redacted] strategy should be [redacted] the 1978 Court of [redacted] actions have [redacted]
